## Butterfly Valves

---

Butterfly valves are available in a variety of materials suitable for applications in the marine, water and process industries. The range includes resilient seated and high performance valves.

For chemical and corrosive duties we offers a range of lined valves whilst special hygienic valves are specifically designed for the pharmaceutical, food and beverage, and fine chemical industries.

### Features:

- Replaceable or vulcanized seat
- Wide choice of seat elastomer
- Firesafe or non-firesafe

### Tech Data:

- Sizes: ¼" – 110"
- Temperature Range: -320°F to 750°F
- Pressure Range: ANSI class 150 to 300
